

# Clearing Cache – Internet Explorer 9-11

**Step 1:** Click on the  button at the top right corner, hover the cursor over **Safety**, and click on **Delete browsing history...** Alternatively, press the **Ctrl, Shift** and **Delete** keys on your keyboard together to access it directly.

**Step 2:** Untick all the options except **Temporary Internet files and website files** which should be ticked. Click on **Delete** to clear the browser's cache.
