

If your Internet Explorer does not display content properly (Manifest Application without dropdowns or Internet mail without content) you might need to apply “compatibility view” settings.

From the tool bar on your Internet Explorer 10, or If no tool bar is showing press the ALT key on your keyboard and at the same time click once the address field. This will display the “File, Edit, View, Favourites, Tools, Help” list at the top of your browser.

Press “ALT” key on keyboard and click once the address field to display the “File, Edit, View, Favourites, Tools, Help” list

Click “Tools” and from the drop down select and click “compatibility view settings”

With IE browser displaying the required site click the “Add “button
