

Instructions on how to set your Internet Explorer 10 and 11 to clear its cache of history, cookies, etc everytime you close it.

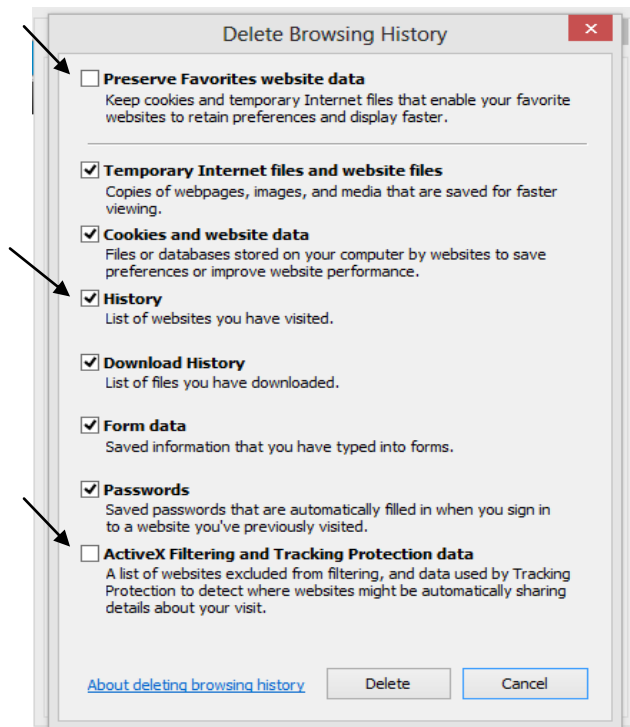

Upper Right Hand Corner of your Internet Explorer, click the Cog wheel Icon

From the drop down menu choose "Internet Options", choose and click "Internet Options"

Tick "Delete browsing history on exit" and then click the "Delete button"

Tick Boxes as required or as per Figure above and then click the "Delete" button

This automatically closes this window and clears the cache. Click the ok button to close the Internet option Window.
