

Instructions on how to set your Safari browser to clear cache of history, cookies, etc every time you close it

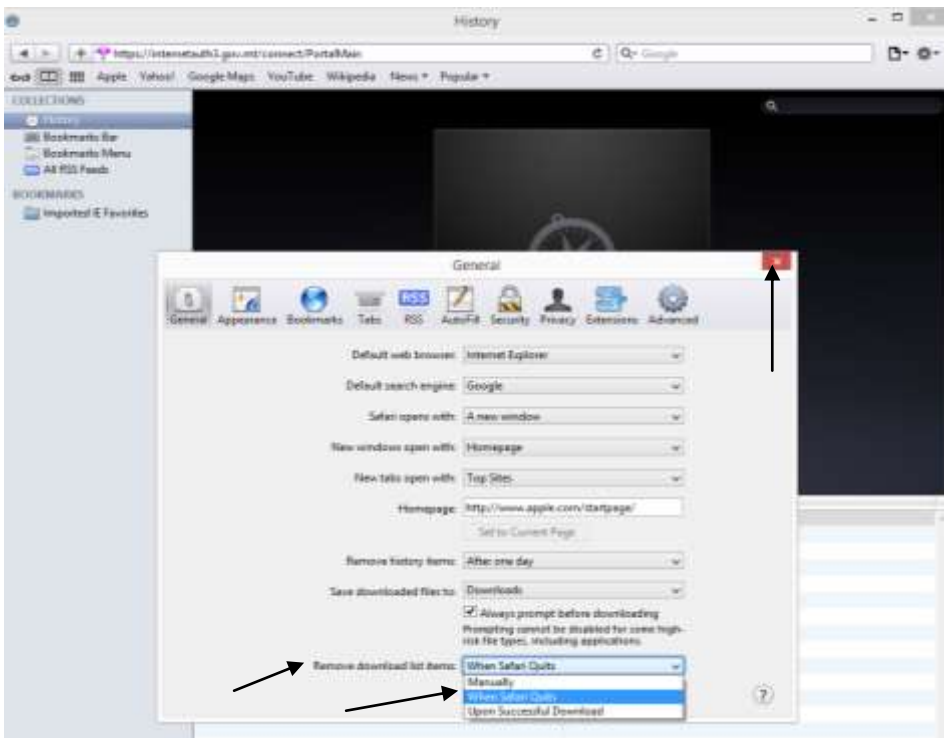

Click Cog wheel Icon on the upper right hand corner of your safari browser

Click Preferences from the drop down menu

Click to choose Privacy and click "Remove history items" and from the drop down menu click to choose the "After one day" option

Also from in the same window also click "Remove downloaded list items" and from the drop down menu choose "the option "When Safari quits"

Close all windows from the white cross in the red tab on the upper right hand corner of your windows
