

VALIDATION MESSAGE CODES

Manual Declarations..... *not applicable*

CES Modules which uses this data **IMPORT SYSTEM**

Tab 6 Validation: (Result)

Reference Data:..... The list of messages below are generated by the system and can be seen in "Tab 6 - Validation" in the Result box. They give an up to date report of the present status of a declaration.

Code	Description
0001	Error in access code - Changed by Anton
0002	Declaration OK
0006	An unexpected error occured.Function haven`t be completed.
0007	Communication error
0008	WebLogic server is missing a necessary resource to complete funtion
0009	WebLogic-server can`t save data in database
0010	WebLogic server can`t find data in database
0011	WebLogic server can`t delete data in database
0012	Check for version in database failed. The function hasn`t been completed because of another user has modified data. Get data once more and try again
0013	System can`t complete validation because of system- or data-related reasons
0020	Taric reject message
0085	Function cannot be completed. User has no rights to Goods recipients number.
0086	Releasecode of Declaration does not allow this function
0087	Control of Risk Analysis can`t be saved before all items have been controlled.
0088	Error in format, in the Declaration which has been sent to Import System via Batch. Declaration is rejected
0089	n/a
0090	This function cannot be executed now.

Code	Description
0091	This function cannot be executed. Status code of Declaration doesnot permit it
0092	This function cannot be completed. Description of Declaration doesnot permit it
0093	There is no item
0094	The result of Risk Analysis has changed.Remember to save the new result.
0095	Result of RiskAnalysis has changed. Remember to save new result.
0096	License cannot be found
0098	Ref_bevilling_virk_adr hasn't been saved (Stamreg lookup failed)
0099	No declaration is selected
1001	Declaration can't be corrected by Continuously composition
1002	Reference Number not found
1003	Actual arrivaltime can't be set for this Declaration description
1004	Actual arrivaltime can't be set, Declaration not approved
1005	Due to the selected criterias, there are no information
1006	Description of Declaration is not correct in connection to Reference No.
1007	Declaration is approved and accepted . Can't be corrected
1008	Company has no licence to Simplified express clearance
1009	Distinctive mark of means of Transport (18.1) and nationality (18.2) must be completed.
1010	Distinctive mark for means of Transport (18.1) and nationality (18.2) plus the active transport nationality (21) must be completed
1011	Distinctive mark of means of Transport (18.1) and active nationality (21) must be completed.
1012	Dinstictive mark of means of Transport (18.1) must be completed.
1013	Reference number of Notification in ahead not found
1014	Notification in ahead is not accepted.
1015	Company number of Goods recipient doesn't match Company number of Goods recipient on Notification in ahead
1016	Commodity code and type of Certificate are incompatible.
1017	Incorrect type of "certificate".
1019	A statement related to "certificate" should be inserted in box 44.6
1020	Company number of Goods recipient doesn't match Company number on Import permission number:
1021	Country of origin doesn't match Country of origin on Import permission number
1022	The Commodity Code doesn't match the Commodity Code on Import permission number

Code	Description
1023	Supplementary unit must be specified
1024	Net weight must be specified
1025	Applied quantity exceeds balance of Import permission
1026	Transport document number must be specified
1027	Incompatibility between numbers of items
1028	Either expected or actual arrival time must be specified
1029	No Import permission with the specified number found
1030	Country of origin is incorrect in proportion to Procedure code
1031	Country of origin is incorrect in proportion to Procedure code
1032	Section- and/or Article-code are incorrect
1033	Supplementary units are incorrect in proportion to the Commodity Code
1034	Procedure code is incorrect in proportion to means of Transport
1035	The Commodity Code is incorrect in proportion to means of Transport
1036	Statistic value per kg net weight are incorrect in proportion to the Commodity Code
1037	Statistic value per Supplementary unit are incorrect in proportion to the Commodity Code
1038	Country of origin incorrect in proportion to Procedure code
1040	Declaration can't be corrected. Simplified express - must have another status
1041	Declaration can't be corrected. Complete express - must have another status
1042	Declaration can't be corrected. Temporarily storage - must have another status
1043	Declaration can't be corrected. Simplified express threshold - must have another status
1044	Declaration can't be corrected. Standard payment of duty - must have another status
1045	Declaration can't be corrected. Standard payment of duty threshold - must have another status
1046	Declaration can't be corrected. Supplementary information - must have another status
1047	Declaration can't be corrected. Simplified express - must have another status
1048	Declaration can't be corrected. Simplified express - must have another status
1051	Type of Declaration can't be changed. It has been accepted -Declaration-status >=12
1052	Declaration can't be deleted
1053	Item can't be deleted
1054	There are no items to delete

Code	Description
1055	Items from this Declaration can't be deleted, declaration is accepted
1056	Deadline to split up into Express clearance is exceeded
1057	Error in split up. Original storage not accepted
1058	Error in split up. Storage is handled during another procedure
1059	Error in split up. Total gross weight of Declaration exceeds the total gross weight of the original Declaration
1060	Procedure code are incorrect in proportion to Article- or Section code
1061	Store number must be completed
1062	Incorrect Procedure code according to subsequently Procedure code
1063	License journal number must be specified
1064	Incorrect Preference code
1065	Preference document is not specified correct
1066	Certificate code is not specified correct
1067	Contingent number must be specified according to Calculation description
1068	License journal number must be specified according to Calculation description
1069	Calculation description and Calculation foundation for duty line must be specified
1070	Goods recipient is not registrated for this Excise duty
1071	Original Declarations are not equal. Unite clearance can't be used
1072	Declaration, with the specified Reference number, to temporarily storage, not found
1073	Temporarily storage is settled
1074	Storage can't be declared. Is possibly settled in another way
1075	Estimated assessment can't be declared.
1076	There are no valid permission. This procedure can't be used
1077	There are no approved storage address
1078	The typed in Dispatch house not found
1079	There are no opening hours with the selected keys
1080	Error in number of Items
1081	Error in standard clearance. Difference between specified gross weight on Temporarily storage(s) and on Standard clearance
1082	Nothing left to declare
1083	Incompatibility between specified gross weight and the remaining not declared quantity

Code	Description
1084	Incorrect Procedure code according to subsequently Procedure code
1085	Calculation foundation for the exported goods, must be specified with negative sign
1086	Duty amount can't be calculated. Rate can't be found automatically, must be specified manually
1087	Incorrect Reference number. Declaration can't be added to Supplementary information
1088	Nationality of the transboundary active Transports are not to be completed
1089	No Contingent preference in a Supplementary Declaration can't be requested
1090	Procedure for Statistic threshold can only be used for shipments at the maximum of 1000 kg
1091	Declaration for treashold can not be used.
1092	Procedure for Statistic threshold can only be used for shipments at the maximum of kr. 6000,-
1093	In this procedure, only Preference codes 100, 200 or 300 can be used
1094	Incorrect Company number in space 30
1095	Incorrect License code in space 30
1096	Company hasn't License as an Approved recipient. This procedure can't be used
1097	Dispatch house not found
1098	To this Dispatch house, Notification in ahead can't be executed
1099	Dispatch house are closed, Notification in ahead can't be carried through
1100	Notification in ahead can't be received, deadline for entry is exceeded
1101	A probably error has occurred. Correct or maintain
1102	Items must be declared immediately
1103	Means of Transport not found
1104	Declaration can't be splitted up into Express Declaration
1105	At least one item must be registrated
1106	No Reference number on the Declaration found
1108	Risk analysis is not ended
1109	No control is demanded by advisement
1110	Incorrect License journal number
1111	Temporarily storage can't be splitted up to Express clearance
1112	Declaration has been splitted up. If any left, to be declared, a new Temporarily storage must be created, containing this quantity
1113	Regulation can't be completed. Incompatibility in gross weight

Code	Description
1114	No deposition can't be completed. Missing Preference- or Value-documentation
1115	Reference number not found on Contingent file
1116	Total gross weight on Clearance do not match the total gross weight on Temporarily storage
1117	Total gross weight on Clearance do not match the total gross weight on Simplified express
1118	Declaration must be accepted and released before it can be corrected
1119	Regulation can only be done by Customs
1120	Item can only be deleted by Customs
1121	Declaration must be accepted and released before it can be adjusted
1122	In this function, only adjustment on deposition for missing value or Preference documentation (Calculation foundation 700 or 800) can be completed
1123	Error in automatically processing of Contingent distribution
1124	Rate not found. Contingent processing must be regulated manually
1126	Notification in ahead can't be corrected. New Notification in ahead is required
1127	Time limit can be postponed at the maximum 3 months from accepted date
1128	Compared to the rules of Functions distinction, the change must be approved by another person than the person which made the change
1129	Value added tax line is not to be declared
1130	Time limit for correction by Declaration, with missing value documentation, can be postponed at the maximum 4 months from accepted date
1131	Storage is not accepted and/or released. Can't be settled
1132	Contingent processing for this Item is requested. Request is waiting for answer from Contingent administration. Can't be regulated before answer is received
1133	Delete denied. Declaration is either settled or splitted up
1134	Delete denied. Declaration is settled
1135	Declaration must be accepted and released, before it can be corrected.
1136	Duty line must not be specified in connection to this Procedure code
1137	Start time for this time out must be in future
1138	Time out period can at the maximum be 120 minutes
1139	No control results for this Declaration can be registrated. It hasn't been selected to control
1140	The stated Commodity Code can't be used on a Temporarily storage
1141	Actual arrival date and time are inserted

Code	Description
1142	Compared to Procedure code, space 44.6 must be completed
1143	Consignment is not completed. It is not declared, stored or exported
1144	The Commodity Code can be included by Anti dumping duty, Countervailing duty, Supplementary duty etc. Supplementary code must be specified. If no Supplementary code is found, then 0000
1145	The Commodity Code is not included by Temporarily Anti dumping duty or Countervailing duty. Mark for security is not necessary
1146	There are no permission to Temporarily storage. Either Goods recipient or agent must have a permission
1147	TARIC can't find rate of duty. Estimated assessment must be finished manually
1148	This function can't be completed, since the description of the Declaration do not permit it. If you want to change Declaration then use Functions- Completion of Clearance- Supplementary information
1149	This function can't be completed, since the description of the Declaration do not permit it. If you want to change Declaration then use Functions- Completion of Clearance- Standard Clearance
1150	The Commodity Code must be completed
1152	Notification in ahead is original sent to another Custom district. Therefore it can't be declared in this Custom district
1153	Box 40, Summarily Declaration must be completed with consignment document number. Items are sent by EU's Consignment system
1154	Incorrect Reference number. Standard clearance can't be declared with this Reference number
1155	Error occurred by registration of Goods recipient home Custom district. Try again later
1156	There cannot be a reference to an Advanced Declaration for this declaration type.
1157	Amandment can not be done.
1158	The import license is not valid any more. New information are inserted in the SAD.
1159	Goods regulation letter must be quoted.
1193	There are no permission to correct Declaration for this Goods recipient
1194	Agent (space 14) are not approved by Goods recipient
1195	You are not authorized to create Declarations for other Importers
1196	You have no access to correct this declaration.
1197	You have no access to create a declaration for this Coods Recipient.
1198	The Temporarily storage have been splitted up. If any left in Declaration, split up must be finished
1199	Declaration can't be saved, since Ref_bevilling_Virk_adr not can be created

1429	Result of Risk analysis, Declaration phase 2: Status Code = 29
1430	Result of Risk analysis, Declaration phase 2: Status Code = 30
1431	Incorrect Declarant's VAT registration number.
1432	Incorrect Registrar's VAT registration number. ?
1433	Company number of Registrar not found
1434	Negative calculation foundation for this Procedure code must not be typed
1435	Store address is situated in another Custom district. Split up/re-registration can't be sent to this Dispatch house.
1436	Standard clearance must be declared to a Dispatch house in Goods recipients home Custom district.
1437	Authorisation (License number), box 44.1, are not to be specified in this procedure

Code	Description
1438	Actual arrival concerning trucks, must be specified by Customs
1439	Reference number
1440	Statistic value can't be found automatically. Space 46 must be completed
1441	Data concerning Assigned Contingent quantity, can't be corrected at this Item. If any request by further Contingent assignment, then regulation is done by adding a new Item
1442	Previous Contingent is assigned. Changes of Item must be by resetting data of the Item, and by creating a new Item with the new data
1443	Previous there are requested for Contingent processing at this Item. Contingent number can't be corrected. Regulation can be done by adding a new Item
1450	The importer is not registered in the Business Registrar as an importer.
1451	The Declarant (BOX 14) is not a Licenced Burdnar.
1451	The declarant agent (BOX 14) is not authorised as a Licenced Burdnar.
1452	The Declarant (BOX 14) need to have an authorisation to act as an indirect representative.
2000	Missing Duty line
2001	Incompatibility between the Commodity Code, Consignor country and Calculation description
2002	Item is included by an Anti dumping arrangement. Calculation foundation must be specified
2003	Item is included by an Agricultural element. Calculation foundation must be specified
2004	Item is included by an Extra duty for sugar or flour. Calculation foundation must be specified
2005	Item is included by an countervailing duty or supplementary amount. Calculation foundation must be specified
2006	Contingent is closed
2007	Incorrect Contingent number
2008	Supplementary code must be declared, since the Commodity Code is included by Anti dumping duty
2009	Incompatibility between the Commodity Code, Consignoir country and Calculation description
2010	Incompatibility between the Commodity Code and Supplementary code
2011	Rate is based on unit value
2012	Rate is based on preset value
2013	Equalization value must be specified
2014	Supplementary duty must be specified
2015	No valid rate is found
2016	Incompatibility between the Commodity Code, Consignor country and Duty arrangement

Code	Description
2017	The Commodity Code not found
2018	Incorrect the Commodity Codes
2019	Country code not found
2020	Incorrect country code
2021	Description of Calculation not found
2022	Incompatibility between Description of Calculation and Contingent number
2023	Contingent not found
2024	Valid rate of exchange not found
2024	n/a
2025	Too many components (for manually control)
2026	Supplementary code not found
2027	Supplementary code must be specified, since Item is included by an Agricultural element
2028	For manually control, as the rate is included by conditions
2029	Incorrect Foundation of Calculation
2030	Incorrect rate
2099	Formate error (internal)
2901	The format of XML is not correct
2902	Error in the calculation type (doesnot exist in the bundle).
2903	Missing tariff complementary data
2904	..
2905	The number in BOX 1.2 is different from the first digit in BOX 37.
2906	Incorrect combination between the preference code (BOX 36) and the preference document code (BOX 44.4)
2907	The declared preference is not valid for this commodity code from this country of origin
2908	BOX 41 (Supplementary Units) cannot be left blank or 0.
2909	Number of Cigarettes required. Add an item NO_OF_CIGS and enter value in Tab 2b
2910	This importer cannot import due to GARNISHEE ORDER issued by Law Court
2911	This importer can import only after he has settled outstanding debts with the ACCOUNTS SECTION of the Customs Department.
2912	Declarations of consignments arriving from acceding/member countries in the EU, should be inputted in the ASYCUDA System.
3003	Reference number is settled by re-export

Code	Description
3004	Reference number is temporarily settled by re-export
3010	Reference number not found
3020	Reference number already exists
3021	Reference number already exists
3099	Error occurred by updating in Export system
4000	Error in data from the business registry.
4001	Error in calculation lines (Regulation)
