

NEW PROCEDURE CODES FOR THE END-USE SPECIAL PROCEDURE (specific use)

A new set of end-use procedures have been introduced to reflect the Union Customs Code. These new procedure codes have replaced existing ones. The authorisation numbers required for the new procedures remain the same as those for the expired corresponding procedures and thus the same reference is to be used.

The list of procedures affected are the following:

Expired Procedures / Authorisation

4000590 / 414
4000599 / 418
4071590 / 440
4071599 / 419

New Procedures / Authorisation

4400000 / 414
4400006 / 418
4471000 / 440
4471006 / 419

The Customs Department reminds all holders of end-use authorisations that goods entered under the end-use procedure are under **customs supervision** and such shall end where the goods have been used for the purposes laid down for the application of duty exemption or reduced rate of duty.

Scenario 1:

8803 30 00 10 - - For use in civil aircraft (TR100)

ERGA OMNES (ERGA OMNES 1011)

→ Import control of fluorinated greenhouse gases (01-01-2017 -) (00700) (00707) [R0517/L4](#)
[Show conditions]

→ Non preferential duty under end-use (01-01-2007 -) : 0 % (T0001) [R1549/06](#)
[Hide conditions]

B1	Presentation of a certificate/licence/document N 990	Apply the mentioned duty
B2	Presentation of a certificate/licence/document	Declared subheading not allowed

Additional information/Documents produced/Certificates and authorisations
N990 EUS - Authorisation for the use of end use procedure (Column 5c, Annex A of Delegated Regulation (EU) 2015/2446)

[Specific Help]

Aircraft parts to be declared under the end-use procedure (**non preferential duty under end use**):

- Trader to seek End Use authorisation from CEPU
- Procedure code 44
- **N990** Cust File number to be quoted as reference in "Produced documents/certificates"
- **Preference code 140 (Non-preferential duty under end use)**

Scenario 2:

8501 31 00 75 - - - Brushless DC motor assembly comprised of a motor and transmission, with:

- electronic control operating by Hall Effect position sensors,
- voltage input 9V or more but not more than 18V,
- external diameter of the motor 70 mm or more but not more than 80 mm,
- output motor power 350 W or more but not more than 550W,
- maximum output torque 50 Nm or more but not more than 52 Nm,
- maximum output rotation speed 280 rpm or more but not more than 300 rpm,
- coaxial male spline outputs of outer diameter 20 mm (±1 mm), 17 teeth and minimum length of teeth 25 mm (± 1 mm), and
- with distance between root of splines 119 mm (± 1 mm)

for use in the manufacture of all-terrain or utility task vehicles

ERGA OMNES (ERGA OMNES 1011)

Third country duty (01-01-2018 -) : **2.70 %** R1754/15

Autonomous suspension under end-use (01-01-2018 -) : **0 %** (11001) (1990) R2467/17

[Hide conditions]

B1	Presentation of a certificate/licence/document N 990	Apply the mentioned duty
B2	Presentation of a certificate/licence/document	Declared subheading not allowed

Additional information/Documents produced/Certificates and authorisations

N990 EUS - Authorisation for the use of end use procedure (Column 8c, Annex A of Delegated Regulation (EU) 2015/2446)

Brushless DC motor assembly for use in the manufacture of all-terrain or utility task vehicles (**Autonomous suspension under end use**):

- Trader to seek End Use authorisation from CEPU
- Procedure code 44
- **N990** Cust File number to be quoted as reference in “Produced documents/certificates”
- **Preference code 115 (Autonomous suspension under end use)**

Scenario 3

8538 10 00 90 - - - Other

ERGA OMNES (ERGA OMNES 1011)

Third country duty (01-07-2018 - 30-06-2019) : **0.60 %** R1925/17

Suspension - goods for certain categories of ships, boats and other vessels and for drilling or production platforms (01-07-2016 -) : **0 %** (11001) **R2658/07**
% (11010)

[Hide conditions]

B1	Presentation of a certificate/licence/document C 990	Apply the mentioned duty
B2	Presentation of a certificate/licence/document	Measure not applicable
