

List of TARIC Codes with their respective VAT and EXCISE Rates as on 11/02/2025

Disclaimer: The Malta Customs Department maintains this report to enhance public access to information about VAT and Excise Duty Rates. Our goal is to keep this information timely and accurate. If errors are brought to our attention we will try to correct them. However the Malta Customs Department accepts no responsibility or liability whatsoever with regards to the information in this report.

If a nomenclature code falls under two different Value Added Tax (VAT) rates, an additional national code *MT_AC_VAT* with the value of either *X001* (VAT rate at 0%) or *X002* (VAT rate at 5%) should be declared in the 'Additional Information' of the Import System so that the correct VAT rate will be charged as specified in the VAT Act. The additional national code and the value should not be declared if the applicable VAT rate is shown below under the VAT RATE column.

TARIC CODE	VAT RATE	ADDITIONAL CODE	Supp. Units for Excise goods only (Box 41)	ADDITIONAL CODE DESCRIPTION	Additional Information	EXCISE RATE
